

Have you heard the news!?!?

Smoothie days are coming to PEXSISEN!

One of our school goals explores healthy living as well as food sustainability. In support of this learning, we are hosting our first PEXSISEN smoothie day on Monday January 30th.

Throughout the remainder of our year we will be providing a smoothies to all students each month. Classroom teachers are aware of food allergies (i.e. nuts and dairy) but please let your child's classroom teacher know if your child is lactose intolerant.

In the future we hope to use the harvest from our school garden as well. Watch for our recipes on our school website soon! We are looking forward to sharing this learning with your children!
